

MIHIR PARIDA

ASPIRING SOFTWARE DEVELOPER

 Bhubaneswar, India  +91 7327958321  mihirparidaw1@gmail.com  linkedin.com/in/mihir-parida-43boaa295
 github.com/Mihiro9CS

PROFESSIONAL SUMMARY

Software Developer skilled in JavaScript, React.js, Node.js, and RESTful APIs with hands-on experience building responsive, scalable web applications. Adept at collaborating with cross-functional teams, designing end-to-end layouts, writing clean code, and integrating predictive intelligence into user-facing web solutions. Strong foundation in computer science principles, algorithms, and full-stack development.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend & APIs: Node.js, Express.js, RESTful APIs, WebSocket
Databases & Caching: MongoDB, Redis
Tools & Platforms: Git, GitHub, Netlify, Vercel, ImageKit, Brevo CDN

PROJECTS & HACKATHONS

TrustLensAI — AI Deepfake Detection Platform (Hackathon Project)

- Designed and built a highly responsive React frontend layout under a tight hackathon timeline to allow instant user media ingestion.
- Engineered robust backend REST APIs using Node.js and Express.js to process heavy file uploads and handle background workflows.
- Integrated production-ready deep learning AI/ML models to analyze image/video files, returning comprehensive metadata summaries and real-time risk scores.

Tech: React, Node.js, Express.js, AI/ML APIs, REST APIs, Tailwind CSS, File Pipelines

DevScribe — MERN Blogging Platform

- Developed a full-stack blogging platform with comprehensive authentication, blog publishing, comments, likes, bookmarks, and detailed user profiles.
- Implemented secure JWT authentication, Google OAuth, email verification, password reset, and robust admin moderation workflows.
- Integrated Redis caching layer, ImageKit media storage CDN, and Brevo email services to maximize platform performance and scalability.

Tech: React, Tailwind CSS, Node.js, Express.js, MongoDB, Redis, JWT, Google OAuth, ImageKit, Brevo, Vercel, Netlify

QuizED — AI-Powered Multiplayer Quiz Platform (Hackathon Project)

- Built an online quiz platform integrating dynamic, automated AI-generated questions tailored to real-time user selections.
- Implemented real-time multiplayer coordination and state synchronization features alongside adaptive learning metrics.

Tech: React, Node.js, Express.js, Socket.io, MongoDB, OpenAI API

Krushu Sathi — AI Agricultural Platform (Hackathon Project)

- Proposed and engineered a prototype for an agricultural intelligence interface aimed at boosting farmer crop efficiencies.
- Integrated predictive AI models to handle structured data inputs for automated crop yield forecasts and plant disease detection.

Tech: React, Node.js, Express.js, REST APIs, Machine Learning Inference Models

WORK EXPERIENCE

AI-ML Intern | CTTC, Bhubaneswar

June 2025 – July 2025

- Developed high-fidelity, responsive React user interfaces and seamlessly integrated backend REST APIs.
- Improved initial page load speeds and runtime performance by 30% through strict React component and state optimizations.
- Enhanced end-to-end user experience (UX) by collaborating closely with UI/UX designers to translate complex wireframes into polished layouts.
- Participated actively in technical peer code reviews, ensuring codebase cleanliness, maintainability, and adherence to team best practices.

EDUCATION

B.Tech in Computer Science and Engineering

June 2023 – June 2027

GIFT Autonomous, Bhubaneswar

CGPA: 8.4 / 10

CERTIFICATIONS

- **Computer Networks and Protocols** – NPTEL (2023)
- **Cyber Security and Privacy** – NPTEL (2024)
